产品特性/Products Characteristics

- ◆横置旋转式自动补油液压缸的关节，从支撑期流畅自然的过渡到摆动期，克服一切影响步行安全的干扰，使步行能力达到轻松自如。
- ◆助伸缓冲功能让行走更轻松舒适，专利抗干扰锁仿生设计，解决了斜坡行走及在不平路面行走的安全性问题。
- ◆重心解锁功能让行走更便捷。
- ◆EBS保险功能让行走与站立更加安全自然，在走状况复杂的路面时，更能发挥出轻松的自然步态。
- ◆自动补油功能让行走更持久。
- ◆rotatable knee joint with automatic filling hydraulic cylinder, smooth shift from stance phase to swing phase; screening all interferences that may have impact on walking to achieve easy and natural walking.
- ◆Extension buffer function makes Walking easier and more Comfortable, Patented interference resistant bionic lock design providing effective solution to the safety problem of uneven-surface walking and down-slope walking.
- ◆The center of gravity unlock function makes walking more convenient.
- ◆EBS danger protecting function makes Walking and Standing Safer and Natural Even on complicated ground, making walk gait more natural.
- ◆Automatic refueling makes walking more durable

技术规格/Specifications

最大承重Weight Rating	高度Height	材质Material	弯曲角度Bending angle	重量Weight
136kg	153.8mm	航空合金材质 Aerometal	147°	0.89KG
